(3) In February and June 2016, Moody’s and S&P downgraded certain senior notes of the Company, increasing the interest rates by 175 basis points effective July 2016. As a result of these downgrades, the interest rate increased to 5.80% for the 2020 Notes and to 6.70% for the 2025 Notes. In April and May 2018, S&P and Moody’s upgraded certain senior notes, decreasing the interest rates by 50 basis points effective July 2018. The first coupon payment to the bondholders at the lower interest rate will be paid in January 2019. As a result of these upgrades, the interest rate decreased to 5.30% for the 2020 Notes and to 6.20% for the 2025 Notes. The first coupon payment to the bondholders at the lower interest rate will be paid in January 2019.

The Company is offering to purchase up to a maximum aggregate purchase price subject to the respective Sub-Caps (as defined below) and priorities (as described below), excluding accrued interest, equal to \$900 million (subject to increase by the Company, the “Maximum Aggregate Purchase Price”) of the Company’s 4.10% senior notes due 2022 (the “2022 Notes”), 4.05% senior notes due 2020 (the “2020 Notes”), 4.95% senior notes due 2025 (the “2025 Notes”), 7.50% senior notes due 2026 (the “2026 Notes”) and 7.75% senior notes due 2027 (the “2027 Notes” and, together with the 2022 Notes, the 2020 Notes, the 2025 Notes and the 2026 Notes, the “Notes”).

Subject to the Maximum Aggregate Purchase Price and the respective Sub-Caps (subject to increase by the Company), the amount of a series of Notes that is purchased in the Tender Offers on the settlement date will be based on the order of priority (the

“Acceptance Priority Level”) for such series of Notes as set forth in the table above, subject to the proration arrangements applicable to the Tender Offers. Subject to the Maximum Aggregate Purchase Price, the maximum aggregate purchase price (subject to increase by the Company, the “2026 Notes Sub-Cap”) to be paid by the Company for the 2026 Notes, excluding accrued interest, will be limited to \$50 million and the maximum aggregate purchase price (subject to increase by the Company, the “2027 Notes Sub-Cap” and together with the 2026 Notes Sub-Cap, the “Sub-Caps”) to be paid by the Company for the 2027 Notes, excluding accrued interest, will also be limited to \$50 million.

The Tender Offers will expire at 11:59 p.m., New York City time, on October 1, 2018, unless extended or terminated by the Company (the “expiration date”). No tenders submitted after the expiration date will be valid. Subject to the terms and conditions of the Tender Offers and Consent Solicitations, the consideration for each \$1,000 principal amount of Notes validly tendered and accepted for purchase pursuant to the Tender Offers will be the applicable tender offer consideration for such series of Notes set forth in the above table (with respect to each series of Notes, the “Tender Offer Consideration”). Holders of Notes that are validly tendered prior to 5:00 p.m., New York City time, on September 17, 2018 (subject to extension, the “early tender time”) and accepted for purchase pursuant to the applicable Tender Offer will receive the applicable Tender Offer Consideration and the applicable early tender premium for such series of Notes as set forth in the table above (the “Early Tender Premium” and, together with the applicable Tender Offer Consideration, the “Total Consideration”). Holders of Notes tendering their Notes after the early tender time will receive the applicable Tender Offer Consideration but will not be eligible to receive the Early Tender Premium. All holders of Notes validly tendered and accepted for purchase pursuant to the Tender Offers will also receive accrued and unpaid interest on such Notes from the last interest payment date with respect to those Notes to, but not including, the settlement date.

Notes that have been tendered may be withdrawn from the applicable Tender Offer prior to 5:00 p.m., New York City time, on September 17, 2018 (subject to extension, the “withdrawal deadline”). Holders of Notes tendered after the withdrawal deadline cannot withdraw their Notes or revoke their consents under the Consent Solicitation unless the Company is required to extend withdrawal rights under applicable law. The Company reserves the right, but is under no obligation, to increase the Maximum Aggregate Purchase Price or the Sub-Caps at any time, subject to applicable law. If the Company increases the Maximum Aggregate Purchase Price or the Sub-Caps, it does not expect to extend the applicable withdrawal deadline, subject to applicable law.

Subject to the Maximum Aggregate Purchase Price, the Sub-Caps and proration, the Company will purchase any Notes that have been validly tendered and accepted in the applicable Tender Offer prior to the expiration date promptly following the expiration date. The settlement date is expected to occur on the second business day following the expiration date.

If an aggregate principal amount of Notes validly tendered prior to the early tender time is such that the aggregate purchase price for such Notes equals or exceeds the Maximum Aggregate Purchase Price, excluding accrued interest, the Company will not accept for purchase any Notes tendered after the applicable early tender time and will, subject to the applicable Sub-Caps, accept for purchase only the Notes tendered before the early tender time pursuant to the Acceptance Priority Levels. Acceptance for tenders of Notes of a series may be subject to proration if the aggregate principal amount of such series of Notes validly tendered would result in an aggregate purchase price that exceeds the Maximum Aggregate Purchase Price or the applicable Sub-Cap.

As part of the Tender Offers, prior to the early tender time, the Company is also soliciting consents (the "Consent Solicitations") from the holders of the Notes for certain proposed amendments described in the Offer to Purchase that would, among other things, remove certain covenants and events of default contained in the indentures governing the Notes (the "Proposed Amendments"). Adoption of the Proposed Amendments with respect to each series of Notes requires the consent of the holders of at least a majority of the outstanding principal amount of such series of Notes (the "Requisite Consents"). Each holder tendering Notes pursuant to the Tender Offers must also deliver a consent to the Proposed Amendments pursuant to the related Consent Solicitation and will be deemed to have delivered their consents by virtue of such tender. Holders may not deliver consents without also tendering their Notes prior to the expiration date. The Proposed Amendments will not become operative until (i) Notes of the relevant series satisfying the Requisite Consent for such series have been validly tendered, and (ii) the Company consummates the Tender Offer with respect to such series of Notes in accordance with its terms and in a manner resulting in the purchase of all Notes of such series validly tendered before the Early Tender Time, if the aggregate purchase price, excluding Accrued Interest, of Notes validly tendered before the Early Tender Time exceeds the Maximum Aggregate Purchase Price, or before the Expiration Date. If the Proposed Amendments become operative with respect to the Notes, holders of the Notes that do not tender their Notes prior to the expiration date, or at all, will be bound by the Proposed Amendments, meaning that the Notes will no longer have the benefit of the existing terms of certain covenants contained in the applicable Indenture. In addition, such holders will not receive either the Tender Offer Consideration or the Early Tender Premium.

The Tender Offers are not conditioned upon the tender of any minimum principal amount of Notes of any series nor on the delivery of a number of consents required to amend the indenture with respect to each series of Notes. However, the Tender Offers and Consent Solicitations are subject to, and conditioned upon, the satisfaction or waiver of certain conditions described in the Offer to Purchase, including the Company's consummation of the sale under the Membership Interest Purchase Agreement dated as of August 30, 2018, by and between the Company and Flywheel Energy Operating, LLC of the Company's subsidiaries that own and operate its Fayetteville Shale exploration and production and related midstream gathering assets (the "Fayetteville Sale").

The Company intends to fund the Tender Offers, including accrued and unpaid interest and fees and expenses payable in connection with the Tender Offers, with proceeds from the Fayetteville Sale.

The purpose of the Tender Offers is to retire debt. If the Tender Offers are not consummated, or if the amount of Notes accepted for purchase in the Tender Offers results in the payment of less than the Maximum Aggregate Purchase Price, the Company may use the remaining amount of proceeds from the Fayetteville Sale originally dedicated to the Tender Offers to repay or retire other outstanding debt. The purpose of the Consent Solicitations is to obtain Requisite Consents to adopt the Proposed Amendments with respect to the applicable indentures governing the notes.
